=====  
u-boot 2013.07  
GNU GENERAL PUBLIC LICENSE, version 2

Copyright (C) 1989, 1991 Free Software Foundation, Inc.  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

U-Boot is Free Software. It is copyrighted by Wolfgang Denk and many others who contributed code (see the actual source code and

the git commit messages for details). You can redistribute U-Boot and/or modify it under the terms of version 2 of the GNU General

Public License as published by the Free Software Foundation. Most of it can also be distributed, at your option, under any later version of the GNU General Public License -- see individual

files for exceptions.

NOTE! This license does not cover the so-called "standalone" applications that use U-Boot services by means of the jump table

provided by U-Boot exactly for this purpose - this is merely considered normal use of U-Boot, and does not fall under the heading

of "derived work" -- see file Licenses/Exceptions for details.

Also note that the GPL and the other licenses are copyrighted by the Free Software Foundation and other organizations, but the

instance of code that they refer to (the U-Boot source code) is copyrighted by me and others who actually wrote it.  
-- Wolfgang Denk

Like many other projects, U-Boot had a tradition of including big blocks of License headers in all files. This not only blew up

the source code with mostly redundant information, but also made it very difficult to generate License Clearing Reports. An additional problem was that even the same licenses were referred to by a number of slightly varying text blocks (full,

abbreviated, different indentation, line wrapping and/or white space, with obsolete address information, ...) which made automatic

processing a nightmare.

To make this easier, such license headers in the source files have been replaced with a single line reference to Unique License

Identifiers as defined by the Linux Foundation's SPDX project [1]. For example, in a source file the full "GPL v2.0 or later"

smart bridge.txt

header text was replaced by a single line:

<https://www.denx.de/wiki/view/U-Boot/Licensing>

=====  
sqlite3 3.7.17  
Public Domain

In order to keep SQLite completely free and unencumbered by copyright, all new contributors to the SQLite code base are asked to

dedicate their contributions to the public domain.

If you want to send a patch or enhancement for possible inclusion in the SQLite source tree, please accompany the patch with the

following statement:

All of the code and documentation in SQLite has been dedicated to the public domain by the authors.

Even though SQLite is in the public domain and does not require a license, some users want to obtain a license anyway. Some

smart bridge.txt

reasons for obtaining a license include:

You are using SQLite in a jurisdiction that does not recognize the public domain.  
You are using SQLite in a jurisdiction that does not recognize the right of an author to dedicate their work to the public

domain.

You want to hold a tangible legal document as evidence that you have the legal right to use and distribute SQLite.

Your legal department tells you that you have to purchase a license.

Modifications:

Version: 2.1.8.7-current  
Copyright 1998-2001 by Rob Braun

Sensor Addition

Version: 2.1.8.9pre14a  
Copyright 2001 by Steve Grubb

This is an excerpt from an email I received from the original author, allowing xinetd as maintained by me, to use the higher version numbers:

I appreciate your maintaining the version string guidelines as specified in the copyright. But I did not mean them to last as long as they did.

So, if you want, you may use any 2.N.\* (N >= 3) version string for future xinetd versions that you release. Note that I am excluding the 2.2.\* line; using that would only create confusion. Naming the next release 2.3.0 would put to rest the confusion about 2.2.1 and 2.1.8.\*.
